*Normaliter wordt onder netto-inkomen het inkomen na belastingen (inclusief heffingskortingen) verstaan. In dit geval hanteren we de definitie waarbij ook de zorgtoeslag, het kindgebonden budget en de huurtoeslag erbij zijn opgeteld. De uitkomst is echter niet gelijk aan het besteedbare inkomen, omdat sommige kosten (zoals de zorgpremie) en toelages (zoals de kinderbijslag) niet zijn meegenomen.
