Situation by 2014/08/12. Data sorted by total from June 2013 to May 2014. Data are rounded to closest 0 or 5. Source: Eurostat

Data exclude applications from EU citizens.

Data concern total applications.

Special Theme: First Asylum Applications in Europe in 2013 related to country area, population and GDP size

Introduction

Biannually¹ the influx of asylum seekers in Europe is related to three indicators of country size: area, population and GDP. In this way we can better compare the asylum influx between small, medium, and large states.

Table 1: Number of first asylum applications compared to country area, population and GDP in 2013

Rank	Country of asylum	Number of Applications	% share in EU	Country area (sq km)	% share in EU	Inhabitants (million)	% share in EU	GDP (billion PPS*)	% share in EU
1	Germany	109.580	28%	357.168	8%	82,0	16%	2.579	20%

Source: Eurostat extracted on 02/05/2014 (applications), 06/05/2014 (area), 12/05/2014 (population) and 13/05/2014 (GDP). Country area, inhabitants and GDP data are the most up to date available data on Eurostat's website.

* This concerns 2012 data. Purchasing Power Standard (PPS) is a mathematical currency used to compare GDP sizes of different countries by eliminating the different price levels

** Austria only provides the total amount of asylum applications (first and repeated)

Table 1 depicts the number of first asylum applications, country area size, number of inhabitants and GDP in 2013 in Europe, arranged by the number of asylum applications in decreasing order. Germany registered the highest number of applications, followed by France and Sweden. The Netherlands ranked eighth within the EU. It is quite clear from table 1 that the order of states when comparing the three indicators of country size is not the same as the order in relation to the number of asylum applications. There are substantial differences for most European states between their share in the EU-28 concerning asylum applications, country area, inhabitants and GDP. In the next subsections the different indicators of country size will be related to the number of asylum applications in more detail.

¹ The next update will appear around September 2014, when the data regarding the first 6 months of 2014 is complete.

First Asylum Applications in Europe in 2013 related to Area size

Table 2: Number of first asylum applications in 2013 related to country area size

Rank	Country of asylum	Applications per 1.000 sq km	In relation to Total EU-28 = 1	Number of applications	Country area (sq km)
1	Malta	6.978	79,0	2.205	316

Source: Eurostat extracted on 02/05/2014 (applications) and 06/05/2014 (area).

* Austria only provides the total amount of asylum applications (first and repeated).

Table 2 relates the number of first asylum applications in 2013 to the area size of the European countries, arranged in decreasing order. By taking the Total EU-28 figure = 1, it shows how many times more or less applications a country received in relation to its area size compared to the EU-28 average. It shows that Malta received the largest number of asylum applications in Europe in relation to its area size: 6.978 per 1.000 sq km, 79 times more than the EU average (88 per 1.000 sq km). Belgium and Luxembourg ranked second and third at some distance with 4,5 and 4,3 times more applications than the EU average. The three countries that received most applications in 2013 in absolute terms (Germany, France and Sweden), also received more applications compared to their country size than the EU average.

First Asylum Applications in Europe in 2013 related to Population size

Table 3: Number of first asylum applications in 2013 related to population size

Rank	Country of asylum	Applications per million inhabitants	In relation to Total EU-28 = 1	Number of applications	Inhabitants (millions)
1	Sweden	5.661	7,2	54.350	9,6
2	Malta	5.513	7,0	2.205	0,4

Source: Eurostat extracted on 02/05/2014 (applications) and 12/05/2014 (population).

* Austria is only able to provide figures of the total amount of asylum applications (first and repeated).

Table 3 provides an overview of the number of first asylum applications in 2013 in relation to population size, arranged in decreasing order. Sweden and Malta received most applications in relation to their population size: 5.661 and 5.513 applications per million inhabitants, 7,2 and 7,0 times more than the EU average (784 applications per million inhabitants). Austria ranked third (2,6 times more). The Netherlands ranked twelfth in the EU with 856 applications per million inhabitants (1,1 times more than average). Germany and France, the number one and two in absolute number of applications, received more applications per million inhabitants than the EU average as well.

First Asylum Applications in Europe in 2013 related to GDP size

Table 4: Number of first asylum applications in 2013 related to GDP size

Rank	Country of asylum	Applications per billion PPS*	In relation to Total EU-28 = 1	Number of Applications	GDP (billion PPS*)
1	Malta	239	7,8	2.205	9
2	Sweden	177	5,8	54.350	306

* This concerns 2012 data. Purchasing Power Standard (PPS) is a mathematical currency used to compare GDP sizes of different countries by eliminating the different price levels.

** Austria is only able to provide figures of the total amount of asylum applications (first and repeated).

Table 4 shows the number of first asylum applications in 2013 related to GDP size (in PPS) arranged in decreasing order. Malta, Sweden and Hungary were the numbers one, two and three with respectively 7,8, 5,8 and 3,6 times more applications in relation to GDP size than the EU average. The Netherlands ranked thirteenth with 0,9 times less applications in relation to GDP size than the EU average. Germany and France the numbers one and two in absolute numbers of applications received more than the EU average in relation to GDP size.

Overview of the indicators: area, population and GDP

Table 5: Overview of all indicators of country size related to number of first asylum applications in 2013

Rank	Country of asylum	Average	Index figure area	Index figure population	Index figure GDP
1	Malta	31,3	79,0	7,0	7,8
2	Sweden	4,8	1,4	7,2	5,8

	Total EU-28	1,0	1,0	1,0	1,0
13	Greece	0,9	0,7	0,9	1,2
14	United Kingdom	0,8	1,4	0,6	0,6
15	Italy	0,7	1,0	0,6	0,6
16	Poland	0,6	0,5	0,5	0,7
17	Finland	0,5	0,1	0,7	0,6
18	Croatia	0,3	0,1	0,3	0,5
19	Ireland	0,2	0,1	0,3	0,2
20	Slovenia	0,2	0,1	0,1	0,2
21	Spain	0,1	0,1	0,1	0,1
22	Latvia	0,1	0,0	0,1	0,2
23	Romania	0,1	0,1	0,1	0,2
24	Lithuania	0,1	0,0	0,1	0,1
25	Estonia	0,1	0,0	0,1	0,1
26	Slovakia	0,1	0,1	0,1	0,1
27	Czech Republic	0,1	0,1	0,1	0,1
28	Portugal	0,1	0,1	0,1	0,1
	Norway	1,6	0,4	2,9	1,5
	Switzerland	3,5	5,3	3,1	2,0

Source: Eurostat extracted on 02/05/2014 (applications), 06/05/2014 (area), 12/05/2014 (population) and 13/05/2014 (GDP). Country area, inhabitants and GDP data are the most up to date available data on Eurostat's website.

Table 5 provides an overview of the asylum influx in relation to the three indicators of country size by taking the Total EU-28 figure = 1. These three different index figures were separately put into the tables 2-4. In addition to this overview, the average index figure is mentioned in table 5 (all three index figures are equally weighted). It shows that in 2013 Malta received the largest number of asylum applications in relation to the three indicators of country size - area, population and GDP - taken together (31,3 times more than average in the EU). Sweden followed with 4,8 times more than average. Hungary ranked third receiving an average of 2,8 times more applications in relation to the EU average in relation to the three indicators - area, population and GDP - taken together. The Netherlands ranked eighth with 2,0 times more applications in relation to the EU average.

Germany and France the numbers one and two in absolute numbers of applications received 2,2 and 1,1 times more applications than average in relation to their country size (area, population and GDP). It is quite clear that the ranking in absolute numbers of applications differs from the ranking when differences in country sizes (area, population and GDP) are taken into account. Nonetheless, six countries listed in the top 10 of absolute numbers of first asylum applications are also listed in the top 10 of applications in relation to country size: Belgium, Sweden, the Netherlands, Austria, Hungary and Germany.
