Transaction review: Green DSL 0.50% 15 January 2040

Overview

- Today the DSTA launched its inaugural 20-year green bond via a Dutch Direct Auction (DDA). Prior to the auction 32 investors were registered as green investor, allowing these investors to benefit from priority allocation over other real money investors. Priority allocation could be as much as up to 10% of their bids at the cut-off spread.
- The book opened at 10.00 CET with an initial spread guidance of +18.0 to +21.0 basis points over the German Bund maturing on 4 July 2040.
- Bids came in very quickly from the start. After about 7 minutes, the book was already larger than € 10 billion. In just 18 minutes the order book reached a volume in excess of € 15 billion. Around 45 minutes later the spread guidance was narrowed to +18.0 to +19.0 basis points.
- The order book was closed at 11:45 CET with a total bid volume of € 21.2 billion. An amount of almost € 6 billion was allocated at a uniform cut-off spread of +18.0 basis points over the reference bond. The allocated amount went to a wide variety of investors, as also shown in the pie charts below.
- At the cut-off spread 82.5% of the bids from 'green real money accounts' were allocated, 72.5% of the bids from 'real money accounts' and 18.5% from 'other' accounts. Of the total amount allocated 28.5% went to 'green real money accounts', 47.0% to 'real money accounts' and 24.5% to 'other' accounts.
- The Green DSL 0.50% 15 January 2040 will be reopened several times in the coming years to reach an outstanding amount of around EUR 10 billion. Liquidity will be further guaranteed through bid/offer quotation obligations for Primary Dealers and through a repo facility available to Primary Dealers.
