

ECON-VI/037

#### 132nd plenary session, 5-6 December 2018

#### **OPINION**

# The Reform Support Programme and European Investment Stabilisation Function

#### THE EUROPEAN COMMITTEE OF THE REGIONS

On the Reform Support Programme

- calls for a better definition of the scope of reforms to be supported, which, to respect subsidiarity,
   should be relevant for the implementation of EU Treaty objectives, relate directly to EU
   competences and bring EU value added;
- welcomes the idea of supporting Member States willing to engage in far-reaching reform commitments through financial contributions and technical assistance, as well as of a convergence facility for Member States having made demonstrable steps towards joining the euro;
- calls for financial support to be allocated between Member States on the basis of cohesion policy indicators instead of population;
- strongly supports the idea that country-specific recommendations should promote investments no less than regulatory reforms, investment-related CSRs should be aligned with the ESIF long-term objectives and the Programme should coordinate all relevant EU spending programmes;
- notes the increased importance of the European Semester and stresses that, to ensure ownership and
  effective implementation of reforms, local and regional authorities should be involved in the
  Semester from its initial phases as design and implementation partners, and that this should become
  a criterion to assess the credibility of reform implementation arrangements;
- stresses that access of local and regional authorities to the technical support instrument under the programme should be pro-actively encouraged at all levels of government;

On the European Investment Stabilisation Function

- stresses that protection from the impact of asymmetric shocks should be ensured for investments by all levels of government;
- welcomes the EISF and reiterates its call to the European Commission to develop over time a fully-fledged insurance mechanism to cater for stabilisation, with a borrowing capacity based on contributions by Member States.

# Opinion of the European Committee of the Regions - The Reform Support Programme and European Investment Stabilisation Function

# I. RECOMMENDATIONS FOR AMENDMENTS TO THE REFORM SUPPORT PROGRAMME

#### **Amendment 1**

Recital 5

#### CoR amendment Text proposed by the European Commission Structural reforms can contribute to achieving a Structural reforms of EU relevance identified in high degree of resilience of domestic economies the European Semester can contribute to and sustainable convergence among Member increasing economic, social and territorial States, which is crucial for successful and smooth cohesion and achieving a high degree of participation in the Economic and Monetary resilience of domestic economies and sustainable That high degree of sustainable convergence among Member States, which is convergence is particularly important for Member crucial for successful and smooth participation in States, whose currency is not the euro, in their the Economic and Monetary Union. That high process of preparation to join the euro area. degree of sustainable convergence is particularly important for Member States, whose currency is not the euro, in their process of preparation to join the euro area.

#### Amendment 2

Text proposed by the European Commission	CoR amendment
The degree of implementation of structural	The degree of implementation of structural
reforms in the Member States is still not sufficient	reforms of EU relevance in the Member States is
across the Union. Experience with the	still not sufficient across the Union. Experience
implementation of the economic policy	with the implementation of the economic policy
coordination mechanism under the European	coordination mechanism under the European
Semester shows that, in general, the	Semester shows that, in general, the
implementation of structural reforms has been	implementation of structural reforms has been
slow and uneven and that national reform efforts	slow and uneven and that national reform efforts
should be reinforced and incentivised.	should be reinforced and incentivised, <i>notably by</i>
	increasing the involvement of local and regional
	authorities which are responsible for the
	implementation of most of the identified reform
	needs.

#### Amendment 3

Recital 15

#### Text proposed by the European Commission

In order to ensure that the reforms supported by the Programme address *all the key economic and societal areas*, both financial support and technical support under the Programme should be provided by the Commission, upon request from a Member State, in a broad range of policy domains, which include areas related to public financial and asset management, institutional and administrative reform, business environment, the financial sector, markets for products, services and labour, education and training, sustainable development, public health and social welfare.

#### CoR amendment

In order to ensure that the reforms supported by the Programme address the *relevant policy* areas, both financial support and technical support under the Programme should be provided by the Commission, upon request from a Member State, in a broad range of domains *related to EU policy objectives*, which include areas related to public financial and asset management, institutional and administrative reform, business environment, the financial sector, markets for products, services and labour, education and training, sustainable development, public health and social welfare.

#### **Amendment 4**

Recital 17

Text proposed by the European Commission	
In order to cater for additional needs under the	
Programme, Member States should have the	
possibility to transfer to the budget of the	
Programme resources programmed in shared	
management under the Union funds, in	
accordance with the procedure thereof.	
Transferred resources should be implemented in	
accordance with the rules of this Programme	
and should be used for the benefit of the Member	
State concerned.	

#### CoR amendment

A Member State or the Commission should have the possibility in case that means allocated according to Article 26 of the present proposal would not be committed to request a transfer of the latter to the ESI funds for the benefit of the Member State concerned.

#### Reason

The amendment ensures consistency with the proposal for amending Article 21 of the Common Provisions Regulation (CPR) contained in the relevant draft opinion (COTER-VI-038). The transfer would also be coherent given that both the Reform Support Programme and the CPR are based on Article 175 TFEU.

#### **Amendment 5**

Text proposed by the European Commission	CoR amendment
With regard to the reform delivery tool, it is	With regard to the reform delivery tool, it is
necessary to identify the types of reforms that	necessary to identify the types of reforms that
should be eligible for financial support. To ensure	should be eligible for financial support. To ensure

their contribution to the objectives of the Programme, the eligible reforms should be those addressing the challenges identified in the context of the European Semester of economic policy coordination, including those proposed to address the country-specific recommendations.

their contribution to the objectives of the Programme, the eligible reforms should be those addressing the challenges identified in the context of the European Semester of economic policy coordination, including those proposed to address the country-specific recommendations and after having taken into account the respective regional perspectives.

#### Reason

The EC is creating a clear link between the spending programmes and the European Semester, which can only serve its purpose if the regional perspectives are enhanced and incorporated into it.

#### **Amendment 6**

Recital 20

#### Text proposed by the European Commission In order to ensure a meaningful incentive for Member States to complete structural reforms, it is appropriate to establish a maximum financial contribution available for them under the instrument for each stage of allocation and under each call. That maximum contribution should be calculated on the basis of the population of Member States. To ensure that the financial incentives are spread throughout the whole period of application of the Programme, the allocation of funds to the Member States should be made in stages. In the first stage lasting twenty months, half (EUR 11 000 000 000) of the overall financial envelope of the reform delivery tool should be made available to Member States, during which they could receive up to their maximum allocation by submitting proposals for reform commitments.

#### CoR amendment

In order to ensure a meaningful incentive for Member States to complete structural reforms of EU relevance, it is appropriate to establish a maximum financial contribution available for them under the instrument for each stage of allocation and under each call. That maximum contribution should be calculated on the basis of the indicators to be adopted for cohesion policy 2021-2027 (GDP per capita, unemployment, low education level, climate change, and the reception and integration of migrants). To ensure that the financial incentives are spread throughout the whole period of application of the Programme, the allocation of funds to the Member States should be made in stages. In the first stage lasting twenty months, half (EUR 11 000 000 000) of the overall financial envelope of the reform delivery tool should be made available to Member States, during which they could receive up to their maximum allocation by submitting proposals for reform commitments.

#### **Amendment 7**

Text proposed by the European Commission	CoR amendment
In order to ensure the ownership of and a focus on	In order to ensure the ownership of and a focus on

relevant reforms, the Member States should identify the reform commitments in response to challenges identified in the context of the European Semester (including those challenges identified in country specific recommendations) and propose a detailed set of measures for their implementation, which should contain appropriate milestones and targets and a timetable for implementation over a maximum period of three years. Close cooperation between the Commission and the Member States should be sought and achieved throughout the process.

relevant reforms, the Member States, involving all levels of government, should identify the reform commitments in response to challenges identified in the context of the European Semester (including those challenges identified in country specific recommendations and after having taken into account respective regional the perspectives) and propose a detailed set of measures for their implementation, which should contain appropriate milestones and targets and a timetable for implementation over a maximum period of three years. Member States should also indicate how relevant existing EU policy actions have been coordinated to support the proposed Close cooperation between reforms. Commission and the Member States should be sought and achieved throughout the process.

Amendment 8
New recital after recital 23

Text proposed by the European Commission	CoR amendment
	The Member States should state how they
	involved their local and regional authorities in
	assessing reform needs and in designing,
	implementing, monitoring and evaluating
	reform commitments. This involvement will take
	place in a structured and permanent manner in
	the context of the European Semester, so that
	local and regional authorities can take part, as
	full partners and from the beginning, in the
	dialogue with the European Commission
	leading to the publication of the Country
	Reports and the Country-specific
	Recommendations. Member States will decide
	how to organise such involvement according to
	their constitutional setting and current division
	of powers across levels of government.

## Amendment 9 Recital 31

Text proposed by the European Commission	CoR amendment
For the purpose of sound financial management,	For the purpose of sound financial management,
specific rules should be laid down for budget	specific rules should be laid down for budget

commitments, payments, suspension, cancellation and recovery of funds. Payments should be based on a positive assessment by the Commission of the implementation of the reform commitments by the Member State. Suspension cancellation of the financial contribution should be possible when the reform commitments have not been implemented in a satisfactory manner by the Member State. To ensure a sustainable impact of the reforms after they are implemented, a reasonable period defining the durability of the reforms after the payment of the financial contribution should be established. A period of five years should be considered to be a reasonable minimum to be applied. Appropriate contradictory procedures should be established to ensure that the decision by the Commission in relation to suspension, cancellation and recovery of amounts paid respects the right of Member States to provide observations.

commitments, payments, suspension, cancellation and recovery of funds. Payments should take place through annual instalments, based on a positive assessment by the Commission of the implementation of progress in the reform commitments by the Member State. Suspension and cancellation of the financial contribution should be possible when the reform commitments have not been implemented in a satisfactory manner by the Member State. To ensure a sustainable impact of the reforms after they are implemented, a reasonable period defining the durability of the reforms after the payment of the financial contribution should be established. A period of five years should be considered to be a reasonable minimum to be applied. Appropriate contradictory procedures should be established to ensure that the decision by the Commission in relation to suspension, cancellation and recovery of amounts paid respects the right of Member States to provide observations.

#### Amendment 10

Recital 32

#### Text proposed by the European Commission

With regard to the technical support instrument, Member States have increasingly taken up technical support under the SRSP, beyond initial expectations. Almost all Member States have requested support under the SRSP and requests are distributed across all policy areas covered by that programme. For that reason, the main features of the SRSP should be maintained, including the actions eligible for financing under the technical support instrument.

#### CoR amendment

With regard to the technical support instrument, Member States have increasingly taken up technical support under the SRSP, beyond initial expectations. Almost all Member States have requested support under the SRSP and requests are distributed across all policy areas covered by that programme. For that reason, the main features of the SRSP should be maintained, including the actions eligible for financing under the technical support instrument. The European Commission and the national governments should encourage the use of the technical support instruments by local and regional authorities by fully opening such instruments to all levels of government and actively promoting their use.

#### **Amendment 11**

Article 4

Text proposed by the European Commission	CoR amendment
General objectives	General objectives
The Programme shall support the following	The Programme shall support the following
general objectives, in all Member States:	general objectives, in all Member States:
(a) to contribute to addressing national reform	(a) to contribute to addressing national reform
challenges of a structural nature aimed at	challenges of a structural nature identified for
improving the performance of the national	their EU relevance in the European Semester

governance, public administration, and economic	relation to challenges faced by institutions,
and social sectors.	governance, public administration, and economic
	and social sectors.

#### **Amendment 12**

Article 6

Text proposed by the European Commission	CoR amendment
Scope	Scope
The general and the specific objectives set out in	The general and the specific objectives set out in
Articles 4 and 5 shall refer to policy areas related	Articles 4 and 5 shall refer to policy areas that
to cohesion, competitiveness, productivity,	are relevant for the implementation of the EU
research and innovation, smart, sustainable, and	Treaty objectives, are linked to EU competences
inclusive growth, jobs and investment, and in	and relate to cohesion, competitiveness,
particular to one or more of the following:	productivity, research and innovation, smart,
	sustainable, and inclusive growth, jobs and
	investment, and in particular to one or more of the
	following:

#### **Amendment 13**

Article 7

Text proposed by the European Commission	CoR amendment
Budget	Budget
1. The financial envelope for the implementation	1. The financial envelope for the implementation
of the Programme for the period 2021-2027 shall	of the Programme for the period 2021-2027 shall
be EUR 25 000 000 000 in current prices.	be EUR 25 000 000 000 in current prices.

2. The indicative distribution of the amount referred to in paragraph 1 shall be:

up to EUR 22 000 000 000 for the reform delivery tool;

up to EUR 840 000 000 for the technical support instrument;

up to EUR 2 160 000 000 for the convergence facility, of which:

- (i) up to EUR 2 000 000 000 for the financial support component; and
- (ii) up to EUR 160 000 000 for the technical support component.

Where, by the 31 December 2023, under the convergence facility, a non-euro-area Member State has not taken demonstrable steps to adopt the single currency within a given time-frame, the maximum amount available for that Member State under the financial support component of the convergence facility pursuant to Article 26 shall be reallocated to the reform delivery tool referred to in point (a) of the first subparagraph of this paragraph. The Commission shall adopt a decision to that effect after having given the Member State concerned the possibility to present its observations within a period of two months of the communication of its conclusions.

3. The financial envelope for the Programme may also cover expenses pertaining to preparatory, monitoring, control, audit and evaluation activities, which are required for the management of the Programme and the achievement of its objectives, in particular studies, meetings of experts, information and communication actions, including corporate communication of the political priorities of the Union, in so far as they are related to the objectives of this Regulation, expenses linked to IT networks focusing on information processing and exchange, including corporate information technology tools, and all other technical and administrative assistance expenses incurred by the Commission for the management of the Programme. Expenses may also cover, under each of the three instruments 2. The indicative distribution of the amount referred to in paragraph 1 shall be:

up to EUR 22 000 000 000 for the reform delivery tool;

up to EUR 840 000 000 for the technical support instrument;

up to EUR 2 160 000 000 for the convergence facility, of which:

- (i) up to EUR 2 000 000 000 for the financial support component; and
- (ii) up to EUR 160 000 000 for the technical support component.

Where, by the 31 December 2023, under the convergence facility, a non-euro-area Member State has not taken demonstrable steps to adopt the single currency within a given time-frame, the maximum amount available for that Member State under the financial support component of the convergence facility pursuant to Article 26 shall be reallocated to the reform delivery tool referred to in point (a) of the first subparagraph of this paragraph. The Commission shall adopt a decision to that effect after having given the Member State concerned the possibility to present its observations within a period of two months of the communication of its conclusions.

- 3. In case that means allocated according to article 26 of the present proposal would not be committed, the resources allocated to a Member State may, at its request or on a proposal by the Commission, be transferred to the ESI Funds for the benefit of the Member State concerned.
- 4. The financial envelope for the Programme may also cover expenses pertaining to preparatory, monitoring, control, audit and evaluation activities, which are required for the management of the Programme and the achievement of its objectives, in particular studies, meetings of experts, information and communication actions, including corporate communication of the political priorities of the Union, in so far as they are related to the objectives of this Regulation, expenses linked to IT networks focusing on

referred to in Article 3, the costs of other supporting activities such as quality control and monitoring of technical support projects on the ground and the costs of peer counselling and experts for the assessment and implementation of structural reforms.

4. Resources allocated to Member States under shared management may, at their request, be transferred to the Programme. The Commission shall implement those resources directly in accordance with point (a) of Article 62(1) of the Financial Regulation or indirectly in accordance with point (c) of that Article. Where possible those resources shall be used for the benefit of the Member State concerned.

information processing and exchange, including corporate information technology tools, and all other technical and administrative assistance expenses incurred by the Commission for the management of the Programme. Expenses may also cover, under each of the three instruments referred to in Article 3, the costs of other supporting activities such as quality control and monitoring of technical support projects on the ground and the costs of peer counselling and experts for the assessment and implementation of structural reforms.

5. Resources allocated to Member States under shared management may, at their request, be transferred to the Programme. The Commission shall implement those resources directly in accordance with point (a) of Article 62(1) of the Financial Regulation or indirectly in accordance with point (c) of that Article. Where possible those resources shall be used for the benefit of the Member State concerned.

#### Reason

The amendment ensures consistency with the proposal for amending Article 21 of the Common Provisions Regulation (CPR) contained in the relevant draft opinion (COTER-VI-038). The transfer would also be coherent given that both the Reform Support Programme and the CPR are based on Article 175 TFEU.

## Amendment 14 Article 9

# Annex I lays down a maximum financial contribution available for each Member State out of the overall envelope of the reform delivery tool referred to in point (a) of Article 7(2). Such a maximum financial contribution is calculated for each Member State using the criteria and methodology set out in that Annex, based on *the population of each Member State*. Such a maximum financial contribution shall be available for allocation to each Member State, in part or in full, at each stage and call of the allocation process set out in Article 10.

Text proposed by the European Commission

#### CoR amendment

Annex I lays down a maximum financial contribution available for each Member State out of the overall envelope of the reform delivery tool referred to in point (a) of Article 7(2). Such a maximum financial contribution is calculated for each Member State using the criteria and methodology set out in that Annex, based on the indicators to be adopted for cohesion policy in *2021-2027* (GDP per capita, vouth unemployment, low education level, climate change, and the reception and integration of migrants). Such maximum financial contribution shall be available for allocation to

each Member State, in part or in full, at each
stage and call of the allocation process set out in
Article 10.

#### **Amendment 18**

Article 12(3)

#### Text proposed by the European Commission

# The decision referred to in paragraph 1 shall lay down the financial contribution to be paid in *one* instalment once the Member State has satisfactorily implemented all the milestones and targets identified in relation to the implementation of each reform commitment.

The decision shall lay down the period for implementation of the reform commitments, which shall be no later than three years after the adoption of the decision. It shall also establish: the detailed arrangements and timetable for implementation of the reform commitments and reporting thereon by the Member State concerned within the European Semester process; the relevant indicators relating to the fulfilment of the milestones and targets; and the modality for providing access by the Commission to the underlying relevant data.

#### CoR amendment

The decision referred to in paragraph 1 shall lay down the financial contribution to be paid in *annual* instalments once the Member State has satisfactorily implemented all the milestones and targets identified *for every year* in relation to the implementation of each reform commitment.

The decision shall lay down the period for implementation of the reform commitments, which shall be no later than three years after the adoption of the decision. It shall also establish: the detailed arrangements and timetable for implementation of the reform commitments and reporting thereon by the Member State concerned within the European Semester process; the relevant indicators relating to the fulfilment of the milestones and targets; and the modality for providing access by the Commission to the underlying relevant data.

#### Amendment 19

Article 14

#### Text proposed by the European Commission

#### Reporting by the Member State in the European Semester

Without prejudice to the second subparagraph of Article 12(3), the Member State concerned shall report regularly within the European Semester process on the progress made in the achievement of the reform commitments. To that effect, Member States are invited to use the content of the national reform programmes as a tool for reporting on progress towards reform completion. The detailed arrangements and timetable for reporting, including the modality for providing access by the Commission to the underlying relevant data, shall be laid down in the decision referred to in Article 12(1).

#### CoR amendment

#### Reporting by the Member State in the European Semester

Without prejudice to the second subparagraph of Article 12(3), the Member State concerned shall report regularly within the European Semester process on the progress made in the achievement of the reform commitments. To that effect, Member States are invited to use the content of the national reform programmes as a tool for reporting on progress towards reform completion, including on the measures taken to ensure coordination between the Programme, the ESI Funds and other EU-funded programmes as relevant. The detailed arrangements and timetable for reporting, including the modality for providing access by the Commission to the underlying relevant data, shall be laid down in the

decision	referred	to	in .	Article	12(1).	The

content	of the n	ation	al 1	reform	progran	nmes
according	gly.					

Amendment 20
Article 19(2), new point after point (e)

Text proposed by the European Commission	CoR amendment
	capacity-building activities undertaken by local and regional authorities in the context of the national reform programmes. Local and regional authorities shall be able to submit their requests under a specific window of the Programme and be direct beneficiaries of the technical support provided.

# Amendment 21 Article 26

Test proposed by the European Commission
Annex X lays down a maximum financial
contribution available for each Member State out
of the overall financial envelope referred to in
point (c)(i) of Article 7(2). Such maximum
financial contribution is calculated for each
eligible Member State using the criteria and
methodology set out in that Annex, based on
population of each Member State, and applies for
each of the allocation stages and calls set out in
Article 10.

Text proposed by the European Commission

Without prejudice to the second subparagraph of Article 7(2), such a maximum financial contribution shall be available for allocation to each eligible Member State, in part or in full, at each stage of the allocation process in accordance with the procedure set out in Article 10 and shall represent an additional contribution over and above the financial contribution referred to in Article 9, which shall be granted in return for additional reforms undertaken by the Member State concerned in accordance with Article 25.

#### CoR amendment

Annex X lays down a maximum financial contribution available for each Member State out of the overall financial envelope referred to in point (c)(i) of Article 7(2). Such maximum financial contribution is calculated for each eligible Member State using the criteria and methodology set out in that Annex, based on the indicators to be adopted for cohesion policy in 2021-2027 (GDP per capita, vouth unemployment, low education level, climate change, and the reception and integration of migrants), and applies for each of the allocation stages and calls set out in Article 10.

Without prejudice to the second subparagraph of Article 7(2), such a maximum financial contribution shall be available for allocation to each eligible Member State, in part or in full, at each stage of the allocation process in accordance with the procedure set out in Article 10 and shall represent an additional contribution over and above the financial contribution referred to in Article 9, which shall be granted in return for additional reforms undertaken by the Member State concerned in accordance with Article 25.

# II. RECOMMENDATIONS FOR AMENDMENTS TO THE EUROPEAN INVESTMENT STABILISATION FUNCTION

#### Amendment 22 Recital (8)

Text proposed by the European Commission	CoR amendment
In particular, in order to support Member States	In particular, in order to support Member States
whose currency is the euro to respond better to	whose currency is the euro to respond better to
rapidly changing economic circumstances and	rapidly changing economic circumstances and
stabilise their economy by preserving public	stabilise their economy by preserving public
investment in the event of large asymmetric	investment in the event of large asymmetric
shocks, a European Investment Stabilisation	shocks, a European Investment Stabilisation
Function (EISF) should be established.	Function (EISF) should be established. <i>The EISF</i>
	should contribute stabilising public investment
	undertaken by all levels of government, since
	local and regional authorities are responsible
	for 66% of the investments and their investments
	have not yet reached the pre-crisis level.
	Enabling local and regional bodies to maintain
	their level of investments would prevent further
	worsening of asymmetric shocks.

#### Reason

The importance of the local and regional level for investments should be highlighted.

#### Amendment 23 Recital 15

	compliance with a convergence code comprising
	criteria allowing for better ownership, should be
	fulfilled by the Member State requesting EISF
	support in order not to diminish the incentive for
	that Member State to pursue prudent and
	sustainable budgetary policies.

1a COM(2015) 12 final, 13.1.2015.

# Reason Self-evident.

#### **Amendment 24**

Recital (21)

#### Text proposed by the European Commission

Member States should invest the support received under EISF in eligible public investment and also maintain the level of public investment in general compared to the average level of public investment over the five last years in order to ensure that the objective pursued by this Regulation is achieved. In that respect, there is the expectation that Member States should give priority to maintaining eligible investment in programmes supported by the Union under the European Regional Development Fund, the Cohesion fund, the European Social Fund, the European Maritime and Fisheries Fund and the European Agricultural Fund for Rural Development.

#### CoR amendment

Member States should invest the support received under EISF in eligible public investment and also maintain the level of public investment in general compared to the average level of public investment over the five last years in order to ensure that the objective pursued by this Regulation is achieved. In that respect, there is the expectation that Member States should give priority to maintaining eligible investment in programmes supported by the Union under the European Regional Development Fund, the Cohesion fund, the European Social Fund, the European Maritime and Fisheries Fund and the European Agricultural Fund for Rural Development.

However, if, due to the severity of the crisis, it proves impossible for the Member State to maintain the level of public investment they committed to when receiving support, the European Commission should determine a lower level of public investments the Member States should ensure.

#### Reason

It could happen that the crisis is so severe that the Member States cannot maintain the level of public investments they committed to when receiving support. In this case, the European Commission should be able to determine a lower level of public investments the Member States should undertake.

#### **Amendment 25**

Text proposed by the European Commission	CoR amendment
EISF should be considered as a first step in the	EISF should be considered as a first step in the
development over time of a fully-fledged	development over time of a fully-fledged
insurance mechanism to cater for macro-	insurance mechanism to cater for macro-

economic stabilisation. *Currently*, EISF would be based on loans and granting of interest rate subsidies. In parallel, *it is not excluded that* the ESM or its legal successor *would* be involved *in the future* by providing financial assistance to Member States whose currency is the euro facing adverse economic conditions in support of public investment. Moreover, *a voluntary* insurance mechanism with a borrowing capacity based on voluntary contributions by Member States *could* be set up *in the future* to provide for a powerful instrument for the purpose of macro-economic stabilisation against asymmetric shocks.

economic stabilisation. Initially, EISF would be based on loans and granting of interest rate subsidies. In parallel, the ESM or its legal successor *could* be involved by providing financial assistance to Member States whose currency is the euro facing adverse economic conditions in support of public investment. Moreover, an insurance mechanism with a borrowing capacity based on contributions by Member States must be set up to provide for a powerful instrument for the purpose of macroeconomic stabilisation against asymmetric shocks.

#### Reason

To clarify the wording of Recital 33, building on comparable proposals for amendments in the draft report by Reimer Böge (EPP/DE) and Pervenche Berès (S&D/FR) presented to the European Parliament's ECON committee.

#### Amendment 26

Article 3.1

Text proposed by the European Commission	CoR amendment
a decision of the Council establishing that no	a decision of the Council establishing that no
effective action has been taken to correct its	effective action has been taken to correct its
excessive deficit under Article 126(8) or Article	excessive deficit under Article 126(8) or Article
126(11) of the Treaty on the Functioning of the	126(11) of the Treaty on the Functioning of the
European Union in the two years prior to	European Union in the two years prior to
requesting support from the EISF;	requesting support from the EISF, taking into
	account the Communication by the Commission
	on "Making the best use of the flexibility within
	the existing rule of the Stability and Growth
	Pact"[1];
	[1] COM(2015) 12 final, 13.1.2015.

	Reason	
Self-explanatory.		

#### **Amendment 27**

Article 5(2)

	Text proposed by the European Commission	CoR amendment
The year following the disbursement of the EISF		The year following the disbursement of the EISF
	loan, the Commission shall examine whether the	loan, the Commission shall examine whether the
	Member State concerned has respected the	Member State concerned has respected the

criteria referred to in paragraph 1. In particular, the Commission shall also verify the extent to which the Member State concerned maintained eligible public investment in programmes supported by the Union under the European Regional Development Fund, Cohesion fund, the European Social Fund, the European Maritime and Fisheries Fund and the Agricultural Fund European for Rural Development.

If the Commission, after having heard the Member State concerned, concludes that the conditions referred to in paragraph 1 have not been complied with, it shall adopt a decision:

- (i) requesting the early repayment of whole or part of the EISF loan, as appropriate; and
- (ii)deciding that upon repayment of EISF loan the Member State concerned shall not be entitled to receive the interest rate subsidy.

The Commission shall adopt its decision without undue delay and shall make it public.

criteria referred to in paragraph 1. In particular, the Commission shall also verify the extent to which the Member State concerned maintained eligible public investment programmes supported by the Union under the European Regional Development Fund, the Cohesion fund, the European Social Fund, the European Maritime and Fisheries Fund and the Agricultural Fund Rural European for Development.

If the Commission, after having heard the Member State concerned, concludes that the conditions referred to in paragraph 1 have not been complied with, it shall adopt a decision:

- (i) requesting the early repayment of whole or part of the EISF loan, as appropriate; and
- (ii) deciding that upon repayment of EISF loan the Member State concerned shall not be entitled to receive the interest rate subsidy.

However, the Commission could also conclude that, due to the impact of the crisis, it was impossible for the Member State concerned to maintain the level of investment set in paragraph 1.

The Commission shall adopt its decision without undue delay and shall make it public.

#### Reason

It could happen that the crisis is so severe that the Member State cannot maintain the level of public investments it committed to when receiving support. In this case, the European Commission should be able to determine a lower level of public investments the Member State should undertake.

#### **Amendment 28**

Article 22.5

Text proposed by the European Commission	CoR amendment
the appropriateness of developing a voluntary	options for developing a fully-fledged insurance
insurance mechanism serving the purpose of	mechanism to cater for macro-economic
macroeconomic stabilisation.	stabilisation.

Reason
Self-explanatory.

#### III. POLICY RECOMMENDATIONS

#### THE EUROPEAN COMMITTEE OF THE REGIONS

On the Reform Support Programme

- 1. stresses that structural reforms of EU-relevance and EU-added value are crucial to ensure economic, social and territorial and cohesion, resilience and convergence within the Union and the EMU; notes that the implementation of the Country-Specific Recommendations on EU-relevant structural reforms is overall unsatisfactory, which results from a lack of ownership and insufficient administrative capacity at all levels of government;
- 2. regrets that the European Commission still has not provided a definition of "structural reforms" within the context of EU economic governance and possible support through EU programmes such as the Reform Support Programme. Reiterates against this background that according to the subsidiarity principle, the scope of structural reforms eligible for EU support should be limited to policy areas that are relevant for the implementation of the EU Treaty objectives and relate directly to EU competences. The CoR rejects any proposal for EU funding to support unspecified structural reforms in the Member States which have not undergone a prior transparent European added value assessment and which do not relate directly to Treaty-based EU competences. In this context, the CoR recalls its resolution of 1 February 2018 rejecting the Commission proposal for a regulation amending the Common Provisions Regulation (EU) No 1303/2013 of 6 December 2017<sup>2</sup>;
- 3. welcomes the idea of supporting Member States willing to engage in far-reaching reform commitments, identified in the context of the European Semester, by means of financial contributions and technical assistance; stresses that the European Semester should integrate as soon as possible the Sustainable Development Goals and be consistent with the long-term investment goals of the EU cohesion policy for 2021-2027;
- 4. welcomes the idea of a convergence facility for Member States having made demonstrable steps towards joining the euro, also providing financial contributions and technical assistance;
- 5. believes that allocating the overall envelope of the Programme based on population would conflict with the Treaty objective of cohesion, which provides the legal basis of the programme (Article 175 TFEU); stresses that the appropriate allocation key should be the indicators adopted for cohesion policy in 2021-2027 (GDP per capita, youth unemployment, low education level, climate change, and the reception and integration of migrants); stresses that this approach would deal consistently with the fact that some Member States having made demonstrable steps towards joining the euro may need reforms less than some current members of the euro area;
- 6. is concerned that a lump sum paid to a Member State upon implementation of a substantial reform package may fail to trigger the decision of undertaking such reform; is concerned that

<sup>2</sup> COM(2017) 826 final.

payment in a single instalment, only once the reforms are implemented, would further weaken the incentive;

- 7. strongly supports the idea that country-specific recommendations should promote investments no less than regulatory reforms; stresses that investment-related recommendations should be aligned with the long-term investment perspective taken by the ESIF; notes that a recent study by DG EMPL shows that, between 2012 and 2015, 62% of all reform needs identified in the context of the European Semester were within the intervention range of the Structural Funds, and that the Operational Programmes actually addressed 42% of such needs; stresses that the Programme should coordinate all relevant EU spending programmes; recommends that it be also possible to move funds from the programme to the ESI funds;
- 8. notes that the Programme would make the European Semester even more important, because it would support only structural reforms identified in the context of the Semester; stresses that it is therefore crucial to improve the European Semester in terms of effectiveness and ownership of reform commitments, based on the principles of partnership and increased transparency for the local and regional authorities; stresses that independent bodies such as the National Fiscal Boards and the National Productivity Boards should help all levels of government and relevant stakeholders to assess the needs for reform and monitor the implementation of the Programme;
- 9. notes that 36% of all country-specific recommendations issued in 2018 address directly the role of cities and regions, which reflects the current division of powers across levels of government, and that, considering also the recommendations addressing only indirectly the role of the local and regional authorities and those the impact of which varies across territories, then 83% of all recommendations are territory-related;
- 10. therefore, stresses that, to ensure ownership, and effective implementation of structural reforms; local and regional authorities should be involved in the European Semester from its initial phases, as design and implementation partners, and that this should become a criterion to assess the credibility of the implementation arrangements of a reform package; insists on its proposal of a Code of Conduct for the involvement of the local and regional authorities in the Semester; welcomes the adoption by the European Parliament, in July 2018, of an amendment to the SRSP regulation stressing the need to involve the local and regional authorities in the preparation and implementation of structural reforms;
- 11. notes that preliminary results of an ongoing study commissioned by the CoR show that capacity-building for cities and regions has not been addressed in a satisfactory manner under the current MFF; notes the challenge of administrative capacity of the local and regional authorities, which is addressed, directly or indirectly, by 68% of the country-specific recommendations for 2018; points out, in this respect, that an Erasmus programme for local representatives could facilitate transfer of expertise and best practice;
- 12. regrets the absence of adequate evidence showing to what extent local and regional authorities have used the SRSP; stresses that access of local and regional authorities to the technical support instrument under the programme should be pro-actively encouraged at all levels of government; reiterates its request for a single and transparent set of guidelines coordinating all

- EU-funded measures providing technical assistance and supporting capacity building under the new MFF;
- 13. encourages integrated territorial approaches, designed in a bottom-up process, to promote favourable ecosystems for the implementation of EU-relevant structural reforms;
- 14. regrets that the European Commission has decided to allocate funds for the centrally-managed Reform Support Programme while cutting programmes with shared-management and European added value such as those under the EU's Cohesion Policy;

#### On the European Investment Stabilisation Function

- 15. notes that structural factors expose Member States to large asymmetric shocks, which provoke sharp reductions of public investment, first of all at local and regional level, and generate negative spill-overs to other countries;
- 16. agrees with the Commission that public investment needs to be protected from asymmetric shocks; recalls that local and regional authorities are responsible for more than 66% of public investment in the EU; recalls that investment at regional level has not yet attained pre-crisis levels; stresses that protection from the impact of asymmetric shocks should be ensured for investments by all levels of government;
- 17. welcomes the proposal for a European Investment Stabilisation Function (EISF) which aims to make national fiscal policies more resilient to asymmetric shocks while achieving long-term sustainability; believes that it could be a first step to equipping the EMU with a temporary shock absorption mechanism;
- 18. notes that the proposal allows for a future upgrade to the scheme and reiterates its call on the European Commission to develop over time a fully-fledged insurance mechanism to cater for economic stabilisation, like a rainy day fund;
- 19. shares the Commission's view that, in order to avoid permanent transfers and moral hazard, only Member States complying with the broad EU governance framework and progressing in convergence should be able to refer to EISF;
- 20. notes that the EISF would start with loans and a relatively small grant component; believes that a fiscal capacity should be large enough to be effective; is concerned whether the maximal amount of loans of EUR 30 billion would be sufficient in the event of a severe crisis affecting several Member States;
- 21. welcomes the Commission proposal that the EISF complement existing instruments such as the European Structural and Investment Funds (ESIF) and that it does not overlap with the European Stability Mechanism (ESM), despite being somewhat similar in scope; notes, however, that macro-economic stabilisation is currently not recognised as an explicit objective of the EU budget and hence poses limitations on how much the EISF can achieve;

22. notes that the term "asymmetric shocks" could also include a liquidity crisis; believes that the appropriate response to a liquidity crisis is the Outright Monetary Transactions (OMT) programme of the European Central Bank, conditional on the participation of the Member State in the ESM programme, and not the EISF.

Brussels, 5 December 2018

The President of the European Committee of the Regions

Karl-Heinz Lambertz

The Secretary-General of the European Committee of the Regions

Jiří Buriánek
