

Public consultation on Directive 2009/81/EC - CONTRACTING AUTHORITIES/ENTITIES, OTHER PUBLIC AUTHORITIES

Fields marked with * are mandatory.

Introduction

Public consultation on Directive 2009/81/EC on defence and sensitive security procurement

Public procurement of military and sensitive security equipment in the EU and EEA is governed by Directive 2009/81/EC. This Directive sets rules for the procurement of arms, munitions and war material, plus related works and services, for defence purposes, but also for the procurement of sensitive supplies, works and services for security purposes. It is tailored to the specificities of defence and security markets also by providing more flexibility and a number of specific defence-related exclusions.

Directive 2009/81/EC is applicable through the national laws of the Member States which transpose it. Thus, all the questions about Directive 2009/81/EC or procedures under the Directive should be understood as referring to the relevant **national rules governing the procurement of military and sensitive security equipment, services and works (i.e.: transposing Directive 2009/81/EC)**.

The deadline for transposition into national law was 21 August 2011. In early 2012, Directive 2009/81/EC was transposed by the majority of EU Member States. When questions refer to the situation “**before or after**” **Directive 2009/81/EC** please take into account the **moment when the specific procurement rules transposing Directive 2009/81/EC entered into the force in your country**. Please see here (<http://ec.europa.eu/DocsRoom/documents/15723>) the list of transposition dates per Member State.

Some questions also refer to the “**Civil Procurement Directives**”. These are the Directives which, through the national laws transposing them, govern general (i.e. non-defence) public procurement. These Directives are, at the moment of the launch of the consultation, **Directives 2004/18/EC and 2004/17/EC**. The national laws transposing them should be replaced, by 18 April 2016, by national laws transposing the new Directives 2014/23/EC, 2014/24/EC and 2014/25/EC. This change will not affect the issues raised in this consultation.

The notion “Member States” used in this questionnaire refers to countries that are part of the European Union or of the European Economic Area.
