**COUNCIL DECISION (CFSP) 2017/...**

**of ...**

**establishing Permanent Structured Cooperation (PESCO)  
and determining the list of Participating Member States**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, in particular Article 46(2) thereof,

Having regard to Protocol No 10 on permanent structured cooperation established by Article 42 of the Treaty on European Union attached to the Treaty on European Union and to the Treaty on the Functioning of European Union,

Having regard to the proposal from the Federal Republic of Germany, the Kingdom of Spain, the French Republic and the Italian Republic,

Having regard to the opinion of the High Representative of the Union for Foreign Affairs and Security Policy (the High Representative),

Whereas:

- (1) Article 42(6) of the Treaty on European Union (TEU) provides that those Member States whose military capabilities fulfil higher criteria, and which have made more binding commitments to one another in this area with a view to the most demanding missions shall establish permanent structured cooperation (PESCO) within the Union framework.
- (2) On 13 November 2017, the Council and the High Representative received a joint notification in accordance with Article 46(1) of the TEU from 23 Member States, and on 7 December 2017 from two other Member States, that all those Member States have the intention to participate in PESCO on the basis that they satisfy the above-mentioned requirements and that they have made the more binding commitments to one another in this area as set out in the Annex to this Decision and on the basis of all the other elements in the notification, including the preamble and the guiding principles of PESCO set out in Annex I to the notification, to which they remain committed in its entirety, and also recalling Article 42(7) of the TEU, including Article 42(7)<sup>1+</sup>.
- (3) The more binding commitments set out in the Annex to this Decision, are consistent with the achievement of the objectives set out in Article 1 of Protocol No 10 to the Treaties and the undertakings referred to in Article 2 of that Protocol.

---

<sup>1</sup> The notification is published together with this Decision (OJ L ...).

<sup>+</sup> OJ: Please insert the publication details for the notification.

- (4) The decision of Member States to participate in PESCO is voluntary and does not in itself affect national sovereignty or the specific character of the security and defence policy of certain Member States. Contributions by the participating Member States to fulfil the more binding commitments under PESCO will be made in accordance with their applicable constitutional provisions.
- (5) Increasing joint and collaborative defence capability development projects, is among the binding commitments under PESCO. Such projects may be supported by contributions from the Union budget in compliance with the Treaties and in accordance with relevant Union instruments and programmes.
- (6) The participating Member States have set out in their respective National Implementation Plans their ability to meet the more binding commitments they have made to one another.
- (7) The necessary conditions having been met, it is therefore appropriate for the Council to adopt a decision establishing PESCO.
- (8) Any other Member State which wishes at a later stage to participate in PESCO may notify its intention to do so to the Council and to the High Representative in accordance with Article 46(3) of the TEU.
- (9) The High Representative will be fully involved in proceedings relating to PESCO.

- (10) There should be consistency between actions undertaken within the framework of PESCO and other CFSP actions and other Union policies. The Council and, within their respective areas of responsibility, the HR and the Commission, should cooperate in order to maximize synergies where applicable.
- (11) In accordance with Article 5 of Protocol No 22 on the position of Denmark annexed to the TEU and to the Treaty on the Functioning of the European Union, Denmark does not participate in the elaboration and the implementation of decisions and actions of the Union which have defence implications. Denmark is therefore not bound by this Decision,

## ANNEX

List of ambitious and more binding common commitments  
undertaken by participating Member States  
in the five areas set out by Article 2 of Protocol 10

*“a) cooperate, as from the entry into force of the Treaty of Lisbon, with a view to achieving approved objectives concerning the level of investment expenditure on defence equipment, and regularly review these objectives, in the light of the security environment and of the Union’s international responsibilities.”*

Based on the collective benchmarks identified in 2007, participating Member States subscribe to the following commitments:

1. Regularly increasing defence budgets in real terms, in order to reach agreed objectives.
2. Successive medium-term increase in defence investment expenditure to 20 % of total defence spending (collective benchmark) in order to fill strategic capability gaps by participating in defence capabilities projects in accordance with CDP and Coordinated Annual Review (CARD).
3. Increasing joint and “collaborative” strategic defence capabilities projects. Such joint and collaborative projects should be supported through the European Defence Fund if required and as appropriate.

4. Increasing the share of expenditure allocated to defence research and technology with a view to nearing the 2 % of total defence spending (collective benchmark).
5. Establishment of a regular review of these commitments (with the aim of endorsement by the Council).

*“b) bring their defence apparatus into line with each other as far as possible, particularly by harmonising the identification of their military needs, by pooling and, where appropriate, specialising their defence means and capabilities, and by encouraging cooperation in the fields of training and logistics.”*

6. Playing a substantial role in capability development within the EU, including within the framework of CARD, in order to ensure the availability of the necessary capabilities for achieving the level of ambition in Europe.
7. Commitment to support the CARD to the maximum extent possible acknowledging the voluntary nature of the review and individual constraints of participating Member States.
8. Commitment to the intensive involvement of a future European Defence Fund in multinational procurement with identified EU added value.
9. Commitment to drawing up harmonised requirements for all capability development projects agreed by participating Member States.

10. Commitment to considering the joint use of existing capabilities in order to optimize the available resources and improve their overall effectiveness.
11. Commitment to ensure increasing efforts in the cooperation on cyber defence, such as information sharing, training and operational support.

*“c) take concrete measures to enhance the availability, interoperability, flexibility and deployability of their forces, in particular by identifying common objectives regarding the commitment of forces, including possibly reviewing their national decision-making procedures.”*

12. With regard to availability and deployability of the forces, the participating Member States are committed to:
  - Making available formations, that are strategically deployable, for the realization of the EU LoA, in addition to a potential deployment of an EUBG. This commitment does neither cover a readiness force, a standing force nor a stand by force.
  - Developing a solid instrument (e.g. a data base) which will only be accessible to participating Member States and contributing nations to record available and rapidly deployable capabilities in order to facilitate and accelerate the Force Generation Process.
  - Aiming for fast-tracked political commitment at national level, including possibly reviewing their national decision-making procedures.

- Providing substantial support within means and capabilities to CSDP operations (e.g. EUFOR) and missions (e.g. EU Training Missions) - with personnel, materiel, training, exercise support, infrastructure or otherwise - which have been unanimously decided by the Council, without prejudice to any decision on contributions to CSDP operations and without prejudice to any constitutional constraints,
- Substantially contributing to EU BG by confirmation of contributions in principle at least four years in advance, with a stand-by period in line with the EU BG concept, obligation to carry out EU BG exercises for the EU BG force package (framework nation) and/or to participate in these exercises (all EU Member States participating in EU BG).
- Simplifying and standardizing cross border military transport in Europe for enabling rapid deployment of military materiel and personnel.

13. With regard to interoperability of forces, the participating Member States are committed to:

- Developing the interoperability of their forces by:
  - Commitment to agree on common evaluation and validation criteria for the EU BG force package aligned with NATO standards while maintaining national certification.
  - Commitment to agree on common technical and operational standards of forces acknowledging that they need to ensure interoperability with NATO.

- Optimizing multinational structures: participating Member States could commit to joining and playing an active role in the main existing and possible future structures partaking in European external action in the military field (EUROCORPS, EUROMARFOR, EUROGENDFOR, MCCE/ATARES/SEOS).

14. Participating Member States will strive for an ambitious approach to common funding of military CSDP operations and missions, beyond what will be defined as common cost according to the Athena council decision.

*“d) work together to ensure that they take the necessary measures to make good, including through multinational approaches, and without prejudice to undertakings in this regard within the North Atlantic Treaty Organisation, the shortfalls perceived in the framework of the ‘Capability Development Mechanism.’”*

15. Help to overcome capability shortcomings identified under the Capability Development Plan (CDP) and CARD. These capability projects shall increase Europe’s strategic autonomy and strengthen the European Defence Technological and Industrial Base (EDTIB).

16. Consider as a priority a European collaborative approach in order to fill capability shortcomings identified at national level and, as a general rule, only use an exclusively national approach if such an examination has been already carried out.

17. Take part in at least one project under the PESCO which develops or provides capabilities identified as strategically relevant by Member States.

*“e) take part, where appropriate, in the development of major joint or European equipment programmes in the framework of the European Defence Agency.”*

18. Commitment to the use of EDA as the European forum for joint capability development and consider the OCCAR as the preferred collaborative program managing organization.
  19. Ensure that all projects with regard to capabilities led by participating Member States make the European defence industry more competitive via an appropriate industrial policy which avoids unnecessary overlap.
  20. Ensure that the cooperation programmes - which must only benefit entities which demonstrably provide added value on EU territory - and the acquisition strategies adopted by the participating Member States will have a positive impact on the EDTIB.
