## 1. INTRODUCTION

*The objective of this service note is to monitor on a quarterly basis the activity of the European instrument for temporary support to mitigate unemployment risks in an emergency (SURE).*

*Council Regulation (EU) 2020/672<sup>1</sup> provides that the Member States of the European Union (together called the “Guarantors”) may contribute to SURE by counter-guaranteeing the risk borne by the Union and that such contributions shall be provided in the form of irrevocable, unconditional and ondemand guarantees. Article 11(3) of Council Regulation (EU) 2020/672 provides that the Commission is to conclude an agreement with a contributing Member State on the irrevocable, unconditional and on-demand guarantee, and that such agreement is to set out the payment conditions (a “Guarantee Agreement”).*

*Point 3.2 of these Guarantee Agreements mentions that “The Commission shall report to the Guarantors on the outstanding claims under Loan Agreements and liabilities under Borrowings on a quarterly basis”.*

## 2. EUROPEAN INSTRUMENT FOR TEMPORARY SUPPORT TO MITIGATE UNEMPLOYMENT RISKS IN AN EMERGENCY (SURE)

### 2.1 Description of the Programme

In the context of the Covid-19 crisis, the Council adopted on 19 May 2020 the SURE regulation (“Support to mitigate Unemployment Risks in an Emergency”).

The financial instrument is available for Member States that need to mobilise significant financial means to fight the negative economic and social consequences of the Covid-19 outbreak on their territory. It can provide financial assistance up to EUR 100 billion in the form of loans from the EU to affected Member States to address sudden increases in public expenditure for the preservation of employment.

Up until end-2020, the Council has already approved EUR 90.3 billion in loans to 18 Member States with a maximum average maturity of 15 years. Further loan amounts can be allocated up to the maximum ceiling of EUR 100 billion.

---

<sup>1</sup> Council Regulation (EU) 2020/672 of 19 May 2020 on the establishment of a European instrument for temporary support to mitigate unemployment risks in an emergency (SURE) following the COVID-19 outbreak (OJ

## 2.2 Description of borrowing operations Q4/2020

The total issued amounts in Q4/2020 have been EUR 39.5 billion with maturities of 5, 10, 15, 20 and 30 years:

1. Debut SURE dual tranche transaction executed successfully on the 20/10/2020 for a total of EUR 17 billion of inaugural social bond. The issuance consists of two bonds, with EUR 10 billion due for repayment in October 2030 and EUR 7 billion due for repayment in 2040. There was very strong investor interest in this highly rated instrument, and the bonds were more than 13 times oversubscribed, resulting in favourable pricing terms for both bonds.
2. Second SURE dual tranche transaction was executed successfully on 10/11/2020 for a total amount of EUR 14 billion social bond split over two distinct tenors: EUR 8bn due in November 2025 and EUR 6bn due in November 2050. The deal has received an overwhelming response in the capital markets and represents one of the largest supranational transaction ever launched.
3. Third SURE single tranche transaction executed successfully on 24/11/2020 for a total amount of a EUR 8.5 billion social bond due in July 2035. The 15-year social bond was extremely well received in the capital markets, having amassed the largest-ever order book for any single tranche benchmark issuance, and printing the largest 15-year deal size in the Sovereigns, Supranationals and Agencies (SSA) space to date.

Figure 1. SURE – Key Statistics of the Borrowing transactions (in EUR)

	SURE #1		SURE #2		SURE #3
Tranche	10 year	20 year	5 year	30 year	15 year
Size of bond	10 billion	7 billion	8 billion	6 billion	8.5 billion
Yield	-0.238%	0.131%	-0.509%	0.317%	-0.102%
Spread	MS+3 bps	MS +14 bps	MS-9 bps	MS+21 bps	MS-5bps
New Issue Concession	+1 bp	+2 bps	+1.5 bps	+2.5 bps	+1 bp
Total investor demand	145 bn	88 bn	105 bn	70 bn	114 bn

Based on the above-mentioned issuance transactions, the following disbursements were made:
